

OSAMA BADHROUS

Full Stack Developer

Hadramout, Yemen | os7softfreelancer@gmail.com | Phone: +967775284298

GitHub: github.com/OS7-SOFT

PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience building production e-commerce SaaS platforms and data-driven applications. Skilled in backend development using ASP.NET Core, C#, and Ruby on Rails, paired with modern frontend frameworks including Next.js, React, and TypeScript. Proficient in database design, RESTful APIs, MediatR, and CQRS patterns. Experienced in delivering end-to-end features and managing deployments using Docker, GitHub Actions CI/CD, Nginx, and Linux server environments.

CORE TECHNICAL SKILLS

Backend: ASP.NET Core, C#, Ruby on Rails, REST APIs, Entity Framework Core, MediatR, CQRS, SignalR

Frontend: Next.js, React, TypeScript, JavaScript, Tailwind CSS

Database & Processing: SQL Server, PostgreSQL, Redis, Sidekiq

DevOps & Architecture: Git, Docker, CI/CD (GitHub Actions), Nginx, Linux servers, Clean Architecture

PROFESSIONAL EXPERIENCE

Full Stack Developer

Apr 2025 - Sep 2026

Orax Soft

Hadramout, Yemen

- Built robust RESTful APIs with ASP.NET Core, C#, MediatR, CQRS, and Entity Framework Core for multi-store e-commerce workflows.
- Developed merchant dashboard and storefront applications using Next.js, React, TypeScript, and Tailwind CSS.
- Designed SQL Server database models and EF Core migrations for orders, payment transactions, and subscriptions.
- Implemented Moyasar payment gateway integration, including secure payment links and webhook handling.
- Managed production deployment pipelines using Docker, Docker Compose, Redis, Nginx, Linux servers, and CI/CD.

Frontend Developer

Oct 2024 - Apr 2025

Mukalla Model Secondary Schools

Hadramout, Yemen

- Developed responsive dashboard interfaces using Next.js, React, and Tailwind CSS for students, teachers, and admissions workflows.
- Integrated frontend modules securely with backend REST APIs and authentication systems.

Frontend Developer

Aug 2024 - Dec 2024

ICode Team

Remote

- Built responsive web interfaces using React, Next.js, JavaScript, and TypeScript, integrating them with backend services.

TECHNICAL PROJECTS

MarketPulse AI — Merchant Insights Platform

2026

Ruby on Rails Developer (Personal Project)

- Engineered backend architecture using Ruby on Rails and PostgreSQL to analyze merchant community conversations.
- Integrated Sidekiq and Redis for background processing of Telegram JSON datasets, alongside Active Storage.
- Implemented secure authentication utilizing JWT and Pundit, and ensured high code quality via RSpec and RuboCop.

EDUCATION

Bachelor of Computer Science

Jan 2020 - Dec 2024

Hadramout University

Hadramout, Yemen
